Due to a change in hospital policy, effective January 18, 2017 clergy & faith leaders can now only access BGH patient information **if the patient or direct family expresses consent DIRECTLY TO THE CLERGY** themselves. It will no longer be possible for clergy to simply "look at the patient list" to discover who from their church is in hospital. For this reason and to protect patient/ congregant confidentiality, please **do not share information about BGH patients or request hospital visitation unless you are the patient or direct family member yourself.** This includes well-intentioned requests for visitation, addition to prayer lists or other prayer requests. Likewise, as it has been all along, information about hospitalized church members related to the ongoing state of their health will continue to be treated here at Queensway as confidential information and will therefore **NEVER** be made available through requests to the church to any person at any time.

Thank you for helping us adhere to this new Pastoral Care policy at BGH."
